saboj@branscome.com

Janine Sabo • 757-303-9044

Information on the logistics of parking, etc.
will be sent upon RSVP

Come join the women of NAWIC for a jobsite and plant tour. We will begin with a tour of the Skiffes Creek Connector project in Newport News. Listen as members of the team tell us the intent of the project and all that is involved in the construction. We will also tour the asphalt and concrete plant at the Branscome Lee Hall Facility. For anyone who would like to add a little more to the experience we will be gathering at Traditions Brewery afterwards for happy hour. There is no cost for the tours. The cost of the happy hour is order-dependent.
